

# ipv Delft highlights

The visual newsletter that puts ipv Delft in the spotlight.

## floating jetty

Designed for Amsterdams Oosterdok area, a 300 meter long, 7 meter wide jetty with integrated seating, several walkways and solar lighting.

## standard movable bridges

Revolutionary: a system of standard movable bridges! Less hassle and much quicker design and building phases. Very cost-effective too.

## Friesian road bridge

Minimalistic concrete road bridge inspired by traditional Friesian farmland bridges. Art deco style design with stainless steel railing.

## modular roadblocks

Series of modular roadblocks designed for Tomaello. Functional and appealing, several colours and many combinations possible.

## information

bridge design	Mr Ivo Mulders	0031 15 750 25 73
multi disciplinary assignments	Mr Adriaan Kok	0031 15 750 25 70
