

# ipv Delft highlights

The visual newsletter that puts ipv Delft in the spotlight.

## Nigtevecht bicycle bridge

Very slender steel arch bridge across Amsterdam-Rhine Canal put in place. Main span 104 m, 10 m clearance. Completion this summer.

## Haringbuys Aerdenhout

Three road bridges with elegant yet playful railings, designed for small high-end residential development. Matching straightforward light posts.

## Leeuwarden Central Station

Our outdoor lighting fixture Lampenkap once again proves its strength. Inviting livingroom atmosphere at Leeuwarden train station.

## Buitering Parkstad motorway bridges

Better part of 35 ipv Delft designed bridges for new motorway completed: overpasses, rail bridge, road bridges and wildlife crossings.
