

ipv Delft highlights

The visual newsletter that puts ipv Delft in the spotlight.

White Church outdoor lighting

Illumination of brick facades, tower and spire of listed building in Noordwijkerhout. Adjustable ground lights provide even lighting.

international projects

We are spreading our wings across the globe, with several Belgian projects and a prestigious project in LA as well as Perth, Australia.

Tram bridge renovation Schipluiden

New bridge deck for historical wrought iron tramway bridge. Railing inscription and lines in deck surface refer to former usage.

Baardwijkse Overlaat bicycle bridges

Recreational route across existing historical railway bridges. Four new bicycle bridges in keeping with landscape and industrial heritage.

Zwolle public transport bridge

Impressive concrete and steel bridge with central beam and cantilever deck. 84 m main span. Bamboo cladding provides appealing atmosphere.
