

ipv Delft highlights

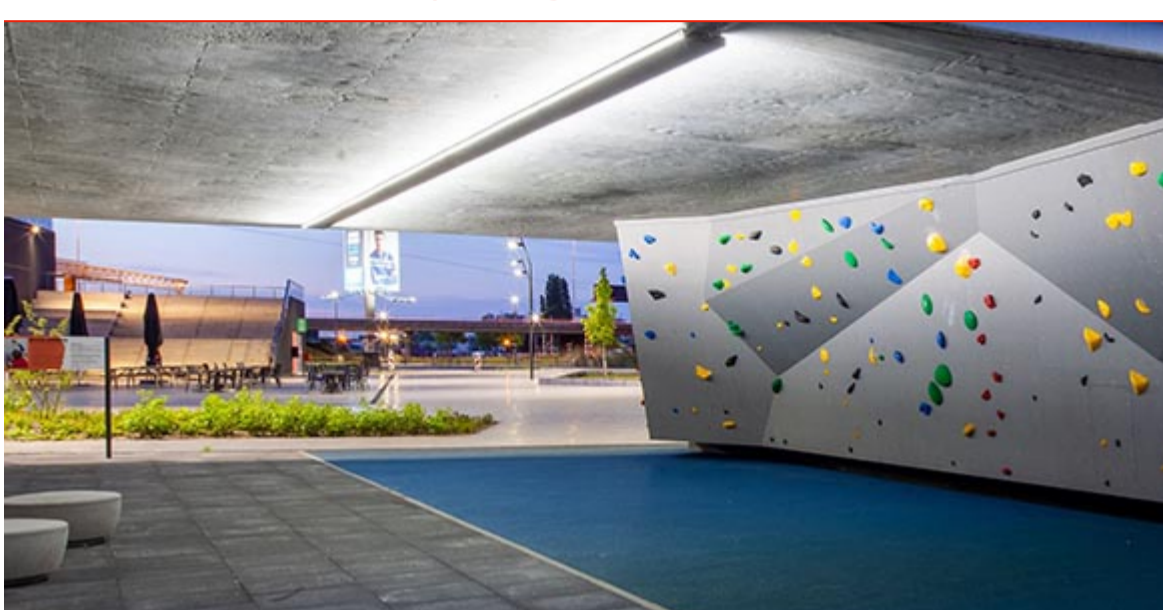

The visual newsletter that puts ipv Delft in the spotlight.

Kerkrade illuminated bridge

Design of railway bridge/wildlife connection/footbridge across new Buitenring motorway. Illumination portrays local wildlife and landscape.

Stamina underpass light fixture

Underpass in Schiedam fitted with our longitudinal Stamina light fixture. Comfortable indirect lighting without glare.

movable Marknesser Bridge

Modern and clean drawbridge for Emmeloord. Driving mechanism, lighting and all other elements fully integrated into bridge design.

Ankeveen footbridge

Elegant low budget bridge design due to efficient tubular beam construction and 1-on-1 collaboration with contractor.

Lelylaan street furniture

Total of five curved benches, 3 to 17 m in length. Steel H-beam basis with wooden slats. Three large tree isles will soon follow.
