

ipv Delft highlights

The visual newsletter that puts ipv Delft in the spotlight.

Schaapsdrift pedestrian bridge

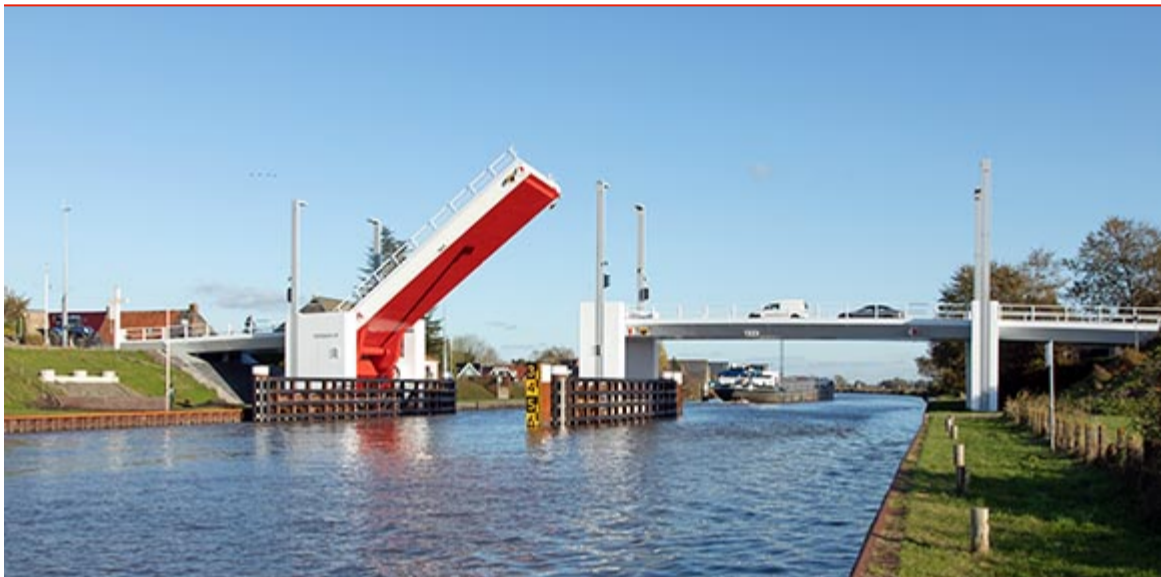

Slender steel footbridge crossing new ring road in Voorthuizen (NL). Elegant design and efficient structure with stainless steel railing.

public space renewal Mijdrecht

Overall design for refurbishment of public space surrounding the Lindeboom shopping centre. Paving, furniture and planting.

Dronrijp movable bridge

Modern movable bridge for the Friesland Province. Installations such as lighting and signs have been integrated into the six vertical elements.

lighting design Opzoomerlaan

Lighting design for public space surrounding local theater and several monumental buildings. Building illuminations as well as street lighting.

system of circular bridges

System of bridges comprising modular and reusable elements, developed in collaboration with Knipscheer Infra. Optional use of recycled materials.
