

ipv Delft highlights

The visual newsletter that puts ipv Delft in the spotlight.

Tegenbosch bicycle bridge

Slender and appealing steel **network arch bridge** across A2 motorway near Eindhoven. Main span of 130 metres. Parametrically designed.

Boezem bridge Halfweg

Road bridge designed for relatively low-speed traffic and with village feel in mind. Spacious bike path and sidewalk, plus incorporated bench.

Eiland-L bridges

Simple yet elegant **truss bridges** for pedestrians and cyclists. Playful and modern design with contrasting brass-coloured handrail.
