

ipv Delft highlights

The visual newsletter that puts ipv Delft in the spotlight.

sustainable hybrid bicycle bridge, Zwolle (NL)

Pairs sustainable wooden beams with durable concrete deck. **Low-maintenance.** Turnkey optional. With Knipscheer Infrastructuur.

sunken N280 main road, Roermond (NL)

Design for concrete retaining walls of **sunken main road**. Inspired by historical Dutch architect Pierre Cuypers, who was a Roermond local.

municipal bridge design, Alphen a/d Rijn (NL)

Custom designed municipal bridge, which comes in two types: rural (as pictured) or urban. Standardised design, free choice of materials.
