

ipv Delft highlights

The visual newsletter that puts ipv Delft in the spotlight.

nature reserve footbridge, Zandvoort(NL)

Minimalistic single span steel **footbridge**, 20 meters in length. Modest design and colour allow natural surroundings to take center stage.

innovative timber-concrete bridge

Innovative **concept** of timber beams and slender cast-in-situ concrete deck. Combines long lifespan with sustainability. Maintenance free.

Laarhoven bicycle bridge, Weert(NL)

Bicycle bridge in weathering steel (load-bearing structure) and concrete (deck) with 55-meter span. Transparent railings and integrated lighting.
